Engaging Students In An Interactive Learning Environment

Multi-Touch Classroom Display Collaborative Learning with 10 Touch Points

Tatung multi-touch displays feature an interactive touch screen that allows teachers to annotate, manage lessons, present PowerPoints and videos using finger or stylus. Tatung's display is compatible with most softwares being used by teachers. Touch interactivity allows multi-student participation and collaboration.

Our interactive LED displays provide a much brighter stimulating experience than traditional projection technology

- Multi-Touch Function for Collaboration
- Wifi Enabled with Web Browser
- Annotation ToolBar Software
- Compatible with Windows and Mac
- Quality Built-In Speakers
- Advance Touchscreen Technology
- Zero Pressure Touch
- Full HD 1080P and 4K Resolution
- Anti-Glare Screen

Proprietary Education Software Over PC Can Manage Content Sharing Between Large Format Display and Hand-held Device

Compatible With Most Educational Software

Experience Interactive Presentations in Meeting Rooms

Interactive Touch Display For Collaborative Thinking & Interaction

Upgrade your Whiteboard or Non Touch Monitor to Tatung's Interactive touchscreen. We offer a better way of presenting dynamic content, charts and video in high definition. Internet and webcams over PC can further enhance lectures and presentations as well as provide the bridge for content sharing between tablets and Tatung's large LED displays

Includes Annotation Software For Window OS

Draw lines, edit text and graphics as well as communicate ideas

Compatible with Windows 7-10 and MAC OS 10.6-10.12 and Linux
